Introduction

The following is a list of consultants working in the academic library sphere produced by SCONUL for the benefit of our members.

While many of the consultants here have an excellent track record of working with SCONUL members, their inclusion should not be taken as an endorsement by SCONUL. We would also recommend that credentials and references are checked when using consultants in any sphere.

If you know of consultants who should be included in this list, please ask them to contact Ann Rossiter, Executive Director of SCONUL.

Areas of expertise:
From 2003 – 2012 I was responsible for providing support to Armed Forces personnel during times of acute difficulty. During this role, I developed a skill set based in Psychology, Psychotherapeutics, Counselling and Social Work.

A further element to my managerial role was to develop and deliver bespoke training packages to Armed Forces teams in the field of human resources, well-being and support.

In 2014, after leaving the Armed Forces, I have continued to provide training consultancy and delivery to Higher Education Service Delivery Staff and to Private Sector Organisations.

Services provided:
Bespoke Training Consultancy and Delivery in:
- Human/Soft Skills
- Customer Relations/Service
- Confidence & Resilience
- Conflict Resolution
- Stress Management
- Leadership
- Mindfulness in the Workplace
- Raising Staff Morale
- Aligning Values & Standards
- Managing Disclosures & Difficulty
- Workplace Happiness
- Change Management

Workplace Assessment & Support:
- Coaching & Mentoring
- Supervising & Appraising
- Stress Assessment
- Workplace SWOT analysis
- Bespoke Post Training Support

Previous work:
See area of expertise.

Since establishing my own company in September 2014, I continue to provide various packages for to service delivery staff at both Wolverhampton and Harper Adams Universities, which have included Customer Service, Managing Disclosures and directorate level Leadership in Management.

I have also worked with the Manchester United Foundation and Army Welfare Service providing role enhancement skills to staff supporting young people.

I am currently providing mindfulness Course (MBSR&MBCT) to clinical staff at St David’s Hospice in North Wales and am in the process of developing a confidence and well-being package for adolescents.

I also regularly train up LEGO Serious Play facilitators.

UX and design thinking in libraries Leadership

LEGO Serious Play (Creativity and innovation, Mission and objectives, teambuilding).

Services provided:
Transformative and interactive training for library staff at all levels featuring innovative and practical methods to encourage engagement and lasting change in participants.

My consulting model seeks to embed approaches and techniques long-term, and to engage and train staff to ensure they have a toolkit and mind set to continue with the work.

- User Experience
- Research methods
- Leadership for emerging leader
- Library Leadership
- Creativity and innovation with LEGO Serious Play
- Mission and objectives setting with LEGO Serious Play
- Teambuilding with LEGO Serious Play
- LEGO Serious Play facilitation

Andy Priestner Training & Consulting
103 High Street
Cherry Hinton
Cambridge CB1 9LU
T: 07917 267579
E: info@andypriestnertraining.com
www.andypriestnertraining.com
LinkedIn: uk.linkedin.com/in/andypriestner/
Twitter: @andytraining
Skype: PriestLib88

Areas of expertise:
I deliver training and consulting to academic, public and national library services.

My primary focus is User Experience (UX) research and design thinking, embedding these approaches within institutions in order to build library services in response to user behaviour as well as need.

Over the past 2 years I have led UX courses in 16 countries worldwide. I also offer successful leadership courses to emerging library leaders based on research with current library leaders, leadership theory and in response to the specific challenges of library leadership.

A third focus is using LEGO Serious Play to help services explore creativity innovation, mission and objective setting and to build teams.

Previous work:
Training and consulting to library services worldwide, chiefly in:
- ABDU (Association of Library Directors, France)
- Anglia Ruskin University
- Bath Spa University
- CILIP
- ARLG
- Delft Technology University
- Netherlands
- Francis Crick Medical Research Institute
- Glasgow University
- Goldsmiths University
- Imperial College London
- King’s College London
- LIASA (Library Association of South Africa)
- Library Association of Ireland/CILIP Ireland
- Macquarie University, Australia
- National Library of Australia
- Oxford Brookes University
- Singapore Library Association
- University of Agder (Norway)
- University of Bristol
- University of Hertfordshire
Ash Charlton
Ace Training
29 Germander Way
London
E15 3AB
T: 07740 982 163
E: ash@acetrainingcourses.co.uk

Areas of expertise:
People skills – including
- Diversity
- Training
- Coaching,
- Confidence-building,
- Empowerment
- Involvement and support.

Services provided:
Training and consultancy on: resilience, cultural awareness, speaking in public, dealing with difficult people, training and coaching skills, time management, managing diversity etc. (For a complete list please see website: www.acetrainingcourses.co.uk).

Previous work:
- Training courses and consultancies with CPD25, SALCTG and many individual universities, including Universities of Edinburgh, Reading and Kent, and related organisations such as the National Library of Scotland.

Bisset Adams Ltd
Sarah Godowski
Director
Bisset Adams
The Cube Building, 17-21 Wenlock Road,
London N1 7TG
T: 020 7250 0440
E: sarah@bissetadams.co.uk
www.bissetadams.co.uk
Twitter: @BissetAdams

Areas of expertise:
Specialists in library design, master planning, listed building refurbishment, new build and remodelling of buildings of all periods.

Services provided:
- Birbeck University, numerous projects including student centre and library feasibility study.
- London School of Hygiene and Tropical Medicine: numerous projects including library, rectorcy, offices etc.
- University of Westminster: School of Media, Arts and Design.

Previous work:
Academic and research libraries
- The libraries of the future study for RIN, RLUK, SCONUL and the BL used futures techniques to develop scenarios for HE and the role of academic libraries to give librarians the necessary tools and resources to help them plan for the longer term future.
- Curtis + Cartwright contributed to the development of a business case for SCONUL regarding the introduction of shared services for libraries across the UK HE sector.
- A study for Jisc that developed online guidance for librarians in the UK HE sector regarding to the transfer and re-use of bibliographic records in web applications. The guidance is now hosted on the Jisc Legal website.
- A study for RIN that estimated the value of UK academic library services for researchers and the contribution made to institutional research performance. The aim was to identify key characteristics of library support to research in successful UK institutions.
- A project for RIN that examined the emerging role of research supervisors in information literacy through desk research, interviews, focus groups and surveys together with detailed synthesis and analysis. Outputs included a dissemination and advocacy strategy.
- This market research for Mimas examined the potential markets for bibliographic services, including Copac, Zetoc and AH and the barriers to uptake.
- The UK Research Reserve has been successful in managing the de-duplication of low-use print journals across research universities. This strategic review investigated future strategy, given that no further HEFCE funding was available.

- OAPEN, Enabling Open Scholarship (EOS)
- FP7 PASTEUR4OA
- FOSTER projects.

David has also worked with Sero-HE on a range of projects.

Deborah Dalley and Associates Ltd
Deborah Dalley
T: 07949 77730
E: info@deborahdalley.com
www.deborahdalley.com

Areas of expertise:
- leadership and management
- development
- team coaching and team development
- managing change and transition
- effective influencing
- organisational and personal communication.

Services provided:
- individual coaching
- team coaching
- training programmes
- facilitation.

Previous work:
- For the past 15 years I have been a regular contributor on management development programmes at several universities. This includes delivering workshops on:
  - handling difficult conversations
  - developing effective communication practices
  - developing and managing teams
  - effective people management
  - influencing with integrity
  - managing change.
- I have provided coaching support to over 150 managers across 11 Universities in the North West and the Midlands.
- In 2009 I designed and delivered a bespoke management development programme for all managers at the John Rylands Library at Manchester University and am still working with their senior management team.
- The design and delivery of a conference on Communication Skills for Effective Advocacy for the Repositories Support Project at Nottingham University.
- I have contributed to several library conferences and events including CILIP North West events, an ALLIS conference and a NWLIP event.
- Team development workshops for management teams from Teesside University, Salford University, Manchester University, Mimas and others.
- I designed and delivered the training and learning module on the Certificate in Library and Information Practice for NoWAL (North West Academic Libraries Consortium)—this involved running workshops, carrying out individual assessments and giving feedback to staff on their training practice. This module ran seven times over a ten year period.
- In the last two years I have co-tutored programmes of the ILM level 5 and level 7 Certificate in Coaching and Mentoring at Manchester University.

Delta Sigma Consulting Ltd

The HECG is led by Allan Schofield who is well known in UK HE, and operates by using a core group of senior associates, all with extensive high level practical experience of HE management and governance. In the area of information management previous work has included numerous work for Jisc, The British Library, CUR, UCISA, OCLC, and the University of London Senate House Library.
Jeremy Atkinson
T: 07743 574233
E: jeremyatkinson@hotmail.co.uk
LinkedIn: uk.linkedin.com/pub/jeremy-atkinson/3/ba5/a67

Areas of expertise:
- strategic and operational reviews of library and information services, projects and organisational structures
- benchmarking of library and information services
- quality assurance of projects and library and information services
- electronic resources development, procurement and service provision
- development of collaborative library provision
- conference organisation and content.

Services provided:
- consultancy
- research
- report writing.

Previous work:
Jeremy Atkinson has wide-ranging experience and expertise in the leadership, management and development of academic library services. He had overall responsibility for the strategic and operational management of library and information services at the University of Glamorgan from 1991 to 2012. He previously held library posts at the University of Northumbria, Cardiff University and Manchester Metropolitan University.

Jeremy has had a long standing and active involvement in a large number of UK strategic committees and groups, notably those of Jisc (continuous involvement from 1998 – 2012), SCONUL (including three years as a trustee and member of SCONUL Executive Board) and WH ELF (Wales Higher Education Libraries Forum). For WH ELF he was Chair of the WH ELF Development Group and responsible for the HELP (Higher Education Libraries in Partnership) project, which defined the future direction of Welsh academic library collaboration, and for the development of the Wheel (Welsh Higher Education Electronic Library) initiative, covering e-journal and ebook procurement for the Welsh HE sector.

Jeremy has produced a wide range of publications and conference papers on topics including change management, quality assurance, electronic resources, library collaboration and networked moving images. He has been commissioned to write / edit a book, ‘Quality and the academic library’, including UK and international contributions, to be published by Chandos Publishing in late 2015.

His most recent experience (2012 to date) is as a Library and Information Services Consultant working with a number of high profile clients, including Jisc and individual UK universities. Consultancy clients have included:

- Jisc: Review of the Knowledge Exchange initiative; Review of the Strategic Content Alliance initiative; Review of Repository Network +; Business case for open access repository shared services; Quality assurance for Open Mirror feasibility study and review of Jisc repository services (for Jisc and co-partners RLUK, SCONUL, UCISA and RUGIT)
- Regent’s College / University: Review of Learning Resources
- Coventry University: Library Quality Review
- Fire Service College: Review of Library Services
- SCONUL: Conference workshop on high quality customer services
- University for the Creative Arts: External for Library & Student Services senior staff restructuring
- Jisc and Chandos Publishing: Evaluator for proposals.

Jeremy’s LinkedIn entry provides more detailed information.

Jules Winterton
Director and Librarian
Institute of Advanced Legal Studies
School of Advanced Study
University of London
17 Russell Square
London WC1B 5DR
T: 020 7862 5884
E: jules.winterton@sas.ac.uk

- University of Sussex
- Institute of Development Studies
- University of the Arts, London
- University of Kent LIS
- University of Bournemouth LIS
- The Bar of Ireland
- Canterbury Cathedral
- Oxford University Bodleian Library
- National Institute for Health and Care Excellence
- Needs gathering, analysis & prep of requirements documents
- Procurement (inc prep & evaluation of tenders)
- Library systems & technology
- Archive systems
- Discovery systems
- Research management and research data
- Ebooks
- Open Access
- Shared services

Ken has worked in the library technology business (inc. at Board level) for over 20 years.

He is a member of CLILP & ALA. He is a member of the NISO Open Discovery Initiative and an Advisory board member of the open access journal Studies in Arts & Humanities.

Services provided:
Our services include advice on changing library, archive & related systems, market analysis, roadmaps, recommendations and business cases for change & improvement. We also help organisations review and develop strategy and innovate new products and services. We provided horizon scanning services and market reports.

We have strong, innovative and engaging methodologies that provide clear, actionable outputs.

We have partnered with a wide range of other consultants and experts.

There is more information on our website: http://www.kenchadconsulting.com/how-we-can-help/

Previous work:
We have worked with many individual HE institutions, sector bodies (e.g. Jisc & SCONUL) and businesses. See our website for details of specific projects: http://www.kenchadconsulting.com/recent-projects/

Projects undertaken have included:
- Analysis and review of library, archive, repository and research system infrastructure
- Advice on new library systems/system replacement
- Needs gathering, system specifications and help with procurement
- Review and analysis of potential solutions
- Strategy
- Innovation-developing new services and products
- Horizon scanning and market analysis

Ken Chad Consulting set up and hosts Library Technology community resources:-

- Higher Education Library Technology (HELibTech)
- Open Specifications for Library Systems (LibTechRFP)

Ken Chad has published and presented at conferences.

Les Watson
T: 07909880985
E: admin@lewatson.net
www.lewatson.net

Areas of expertise:
- library buildings and use
- user views, attitudes and requirements
- space use
- technology deployment, use and suitability
- interior design development and impacts
- libraries role in learning
- service offer-development, integration and response to locality and community
- futures.

Services provided:
- Client services for spaces and buildings—new builds, refurbishment projects, concept development and pre-planning, project advisory services, liaison with architects, designers and other building professionals, IT development and overall project planning.
- Library reviews – space organisation and use, service reviews, strategy assessment and development, user technology selection implementation and strategy, operations, user expectations surveys.
- Links with other services e.g. Student services.
- Interim Management Roles.
Lisa Jeskins Training
T: 0161 491 1669
T: 07890773317
E: lisa@lisajeskintraining.com
http://lisajeskintraining.com/

Areas of expertise:
- social media
- presentation skills
- train the trainer
- customer service
- enquiry/reference desk skills
- information literacy
- facilitation for communications, marketing and team building.

Services provided:
I provide high quality, and engaging training and facilitated workshops. My training is tailored to the needs and requirements of your staff so that it is relevant and effective. I am a chartered librarian with over 15 years’ experience working in libraries. This means that I understand the challenges information professionals face.

I can provide training on:
- presentation skills
- train the trainer
- reference desk skills
- customer service skills
- introduction to Twitter
- introduction to blogging
- introduction to social media
- enhancing customer experience using social media
- facilitated workshops on
  - team building
  - communications
  - marketing.

I can help to review your information literacy practice and make suggestions for new practice.

Previous work:
- The British Library
- University of Manchester (Library, IT Services)
- University of Leeds Library
- University of Nottingham Libraries, Research and Learning Resources
- Lancaster University (Staff Development Unit)
- Liverpool John Moores University Library
- Manchester Metropolitan University Library
- ASLIB
- NHS Libraries in the North West, North East, Yorks and Humber, Kent, Surrey and Sussex
- Lancashire Academic Libraries Network
- Edge Hill University
- York St John Library
- RNIB (Library)
- Credo
- Cardiff
- Metropolitan University Library
- An investigation into the use and value of the Balanced Scorecard in an international sample of libraries.
- A project to establish the extent to which changes in usage statistics for electronic resources may be attributed to the introduction of resource discovery tools.
- An investigation of the role of publicly available repositories in scholarly communication, with a special focus on researchers' perceptions of, and their attitudes towards using, repositories.
- An investigation of the value of academic libraries for teaching and research staff, to provide the academic library community with a greater understanding of their connections with academic departments, and to identify ways to improve those connections through the identification of good practice.
- An investigation into the status of health librarianship and libraries in Ireland including a review of international best practice, interviews with key stakeholders, and a survey and focus group of health librarians in Ireland.
- An investigation of options for measuring the performance of digital library resources at a national library, involving a review of current assessment practices and the development of new tools to evaluate the performance of the digital library.
- Support for a stakeholder consultation project – two questionnaires were designed, for online and telephone administration, and the resulting data analysed and synthesised to inform the wider project.

Max Hammond
T: +49 173 5782440
E: max@mhsstrategy.eu

Areas of expertise:
Max is an experienced consultant who has undertaken work spanning detailed technology and business process reviews, audience analysis and market research, service evaluations, through to strategic reviews of major national services and the development of long-term strategy. Max has an excellent understanding of academic libraries, the library community, and in particular the strategic implications of current and emerging technologies:
- HE and research libraries
- national strategy and guidance
- shared/above-campus services
- technology strategy
- skills and staffing structures
- cloud computing
- data-centric infrastructures
- digitisation and digital curation
- digital heritage
- authentication/authorisation infrastructures
- information assurance.

**Services provided:**
- audience/user analysis
- business analysis
- business case development
- business model design
- business process modelling and improvement
- evaluation and impact assessment
- facilitation
- market research
- project, programme and portfolio design and management
- requirements capture
- scenario planning
- strategic review

**Previous work:**
Max has successfully conducted a very wide range of projects for the education and research sectors, with a particular focus on libraries. A selection of examples includes:

- The strategic review of UKRR (2012) evaluated the progress that this nationally-important shared service has made, identified challenges and potential future models and developed a change plan which has been accepted by the Board.
- The review of all services provided by Jisc (2012) was part of the continuing work to implement the recent Wilson Review of Jisc. The report considered overall management of portfolios and services, and alignment with customer requirements.
- A review of the Jisc datacentres EDINA and Mimas (2011) considered their role and their relationship with their sponsors through a series of organisation and governance models.
- The Libraries of the Future project (2011) used horizon scanning and futures techniques to create scenarios to support the development of long-term strategic plans for academic and research libraries.
- Author of a Jisc Observatory TechWatch paper (2012) on data-driven infrastructure, including technical overviews of Linked Data, APIs, and NoSQL database systems—but focusing on the business impact of the design paradigm.
- Joint author of an Audience Analysis Toolkit (2008), bringing together key market research and service planning techniques to meet the needs of a diverse set of stakeholders within the UK public sector, including education, health, broadcasters, health, and libraries.
- Developing content and providing mentoring for a project to develop a course and associated training materials to teach the skills required to manage digital content creation projects (2012).
- Supported a study of a shared services approach for a Library Management System for academic libraries (2009). Working with SCONUL member libraries, publishers and suppliers to design, justify and plan a shared service that could potentially be scaled up across the UK. Max’s contribution included requirements capture, designing the proposed service and the assessment of benefits, costs and risks for the plan and associated policy developments.
- Conducted a project to investigate the legal implications of re-using library catalogue records in a web environment (2009). This project produced practical information to UK university libraries to facilitate their decision-making.

**Michelle Maden**
Clinical Information Specialist, MA Hons, MA, PGCert HE Teaching & Learning Support
T: 0151 924 0428
E: michelle.jenkins@hotmail.com
LinkedIn: linkedin.com/in/michellemaden

**Areas of expertise:**
Delivering workshops and seminars to librarians and health/medical students in the following research methods:
- systematic reviews
- critical appraisal
- research methodology (with a focus on health/medical, LIS fields)
- literature searching
- undertaking comprehensive literature searches to support all aspects of evidence-based practice, publications, research proposals and guideline production.

**Services provided:**
- Comprehensive literature searching, data extraction and quality assessment for systematic reviews. Transparency of the process is explicitly outlined with detailed presentation of the methodology involved.
- Consultancy and training provided for all aspects of systematic reviewing (literature searching, data extraction, quality assessment, synthesis, structure and presentation of final review). An interactive, practical approach is offered to introduce trainees to systematic reviewing.
- Training delivered as a standalone in literature searching (beginners, intermediates, advanced), critical appraisal, study designs, reference management, systematic reviewing.
- Quantitative and qualitative data analysis.

**Previous work:**
- Associate Tutor in Systematic Reviews involving the supervision of MA level systematic review students, lecturer on systematic reviews, research methods and critical appraisal modules for Master’s levels programmes.
- Module lead for systematic reviews on a 10 week MA level programme with responsibility for curriculum content and delivery via a synchronous learning environment (Wimba).
- Lecturer on a MA Library and Information Management course with responsibility for the Research Methods module.
- Research Assistant for a Systematic Review looking at the effectiveness of treatments for cocaine dependence (£20k grant awarded).
- Trainer for the North West Library and Information Health Network Northwest (LiTHNN) in critical appraisal, literature searching and systematic reviews.
- Supporting and delivering a proactive and reactive clinical information service across two NHS trusts.
- Information Officer and Research Assistant for BestBETs undertaking literature searching for shortcut evidence-based reviews published in the medical literature.
- Published author and co-author of systematic reviews in the LIS and health fields.
Ned Potter
E: nedpotter@gmail.com
www.ned-potter.com/training
Twitter: @ned_potter

Areas of expertise:
Communication, specifically in the areas of marketing, presentation skills, social media, and emerging technologies.

Services provided:
Full-day interactive workshops, tailored for the specific organisation.

The content is not based on future trends but on what is happening NOW. The feedback reflects that delegates leave with plenty of ideas they can apply straight away to improve their organisations’ (or their own) communication and marketing.

Examples of training offered include:
- Making Your Message Stick: a presentation skills workshop covering both PowerPoint and Prezi.
- The Digital Marketing Toolkit: covering new technologies, publishing online, marketing with video and more.
- An Introduction to Twitter and Blogging, aimed at organisations taking their first steps with these platforms.
- Social Media Improvers, for those already using social media who want to build their network, develop a more engaged audience, and measure and track impact.
- Pure Marketing, on tuning out the white noise and effectively promoting the library to relevant parties.

Workshops are always adapted to suit the audience, and the above can be broken down into half-day sessions and mixed and matched depending on need.

Previous work:
- Regular Trainer for the British Library and UKeLG (the UK electronic Information Group).
- In-house training for various organisations including the Bodleian, the Open University, and University of the Arts, and the Army.
- Workshops for various groups including the Academic and Research Libraries Group, School Libraries Group, Health Libraries North, the International Library and Information Group, and abroad for the Library and Information Association of South Africa, the Latvian Ministry of Culture, and upcoming workshops for Public Libraries Australia.
- Transformation, a 21st Century University – Glasgow Caledonian University
- University of East Anglia – ‘Love @ UEA – Rethinking Library Spaces’
- University of Bristol – The Design Guide
- University of Bristol – The Chemistry Building
- Regents College London – Tate Library
- University of Bristol – ‘Libris’ International Design Competition in partnership with Wilkinson Eyre Architects
- Glasgow Caledonian University – Campus Master planning in partnership with Page/Park Architects
- University of Bristol – ‘ASSL Design Project’
- Archie Foundation – Abloye Hospital
- Archie Foundation – Fraserburgh Hospital
- Apollo Capital Projects – Rutland Surgery
- Middlesex University – Inside Out: Rethinking Learning Resources
- City of Glasgow College – Library Refurbishment
- University of Stirling – Atrium Master planning in partnership with Page/Park Architects
- Heriot Watt University – Gateway & Heart Project – Design Manifesto
- Kings College London – Quadrangle Creative Consultation Project
- Glasgow Caledonian University – Heart of Campus Project
- University of Bristol – Spaces to Grow Project
- University of Liverpool – Guild of Students Project
- Stobhill Hospital – Exemplar Dementia Wards 45 & 46
- Kings College London – Somerset House East Wing Learning Centre

Warwickshire CV31 3JZ
T: 0121 288 6936
E: owen@ostephens.com
www.ostephens.com
Skype: owen.stephens

Areas of expertise:
- Using IT effectively in libraries
- Helping libraries design and implement efficient workflows and processes.
- Procuring, implementing and exploiting library systems.
- Integrating library resources and services into learning environments.

Services provided:
- Review of staffing structures, processes and systems.
- Stakeholder analysis and requirements gathering for a process or system.
- It system analysis, assessment, procurement and/or implementation.
- Facilitation of strategic planning.
- Project management.
- Software development, documentation and maintenance.
- Staff training in the area of technology and digital humanities.

Previous work:
Owen Stephens Consulting has undertaken a wide range of projects for libraries, library consortia and national bodies.

Clients include:
- RLUK
- SCONUL
- Jisc Collections
- White Rose Consortium
- And a number of UK HE institutions.

We also have a good track record of collaborating with other consultants and organisations to deliver projects. Before forming the consultancy, Owen Stephens worked on the management team of the library services of two leading UK universities and during that time was responsible for a number of innovative projects at both institutional and national levels.

Recent work undertaken by Owen Stephens Consulting includes:
- Project management technical expertise for a variety of Jisc funded projects in the area of libraries, archives, and open access repositories.
- Workshop facilitation on a range of library related topics.
- Review and documentation of software and related services.
- Analysis of staff requirements to support the use of technology in libraries.
- Software development for the integration of library resources into learning environments.
- Data modelling and system design for electronic resource management.

- Strategic technology management
- Financial management and resource allocation
- Change management
- Training and development project management.

Services provided:
- Consultancy
- Training and development
- Report writing
- Bid writing.

Previous work:
David Baker has over 30 years’ experience in HE, including as Pro-Vice-Chancellor at the University of East Anglia and Principal and Chief Executive of the University of St Mark and St John, Plymouth. He holds a Chair in Strategic Information Management from the University. David led the University through the process of gaining its own taught degree awarding powers (TDAP). He has also worked extensively with Jisc, including as Deputy Chair for four years. He chaired the Transition Board that turned Jisc from a public to a private sector organisation. He was also Chair of GuildHE and Chair of Universities South West when Principal at the University of St Mark and St John.

David has written widely in the field of library and information science (LIS) with 17 monographs and over 100 articles and book chapters to his credit. He has spoken at numerous conferences, led workshops and seminars and has undertaken consultancy work in most countries in the European Union, along with work in Ethiopia, Kuwait, Nigeria, South Africa and the Sudan.
He has led a number of large technology-based projects in the US sector, both in relation to digital and hybrid library development and content creation for teaching and learning. His other key professional interest and expertise has been in the field of human resources, where he has been active in major national projects. He has also advised a number of colleges on gaining TDAP. David has been a senior manager in UK HE for many years with national-level experience at CEO level. He also has significant experience as a consultant in the field.

Sample Recent Consultancies

- The British Council – Middle East Office – feasibility study for provision of distance learning to Syrian refugees in Palestine and Lebanon.
- Leeds College of Music – management and development of online learning.
- The Association of Commonwealth Universities – benchmarking of library and information provision.
- St Mary’s University Twickenham – Information Strategy Management and Development.
- University of South Wales – ICT management.
- Nottingham University – Strategic Review of Library and Information Services.
- Organisational Development Projects leading to Taught Degree Awarding Powers for:
  1. Regents’ University London
  2. British School of Osteopathy
  3. Anglo-European College of Chiropractic

- affordable leadership workshops including (examples):
  (i) Forever Changes (cultivating resilience in times of change, challenge – and opportunity)
  (ii) Enable, Empower, Inspire (coaching skills for 21st leaders)
  (iii) Make Yourself Heard (confident public speaking)
  (iv) Lead From Within (skills, tools and knowledge to build confidence in leaders)
  (v) Overcoming Fear of Failure (fostering creativity, learning and innovation in the workplace).

- 1:1 Leadership coaching
- Specialist training in licensing and negotiations skills for librarians.

Previous work:
- 25+ years in various areas of research information.
- I have worked extensively with publishers, libraries, consortia and academics as well as subscription agents, intermediaries and technology service providers.
- I also have experience of information for development programmes having worked for INASP for five years (and beyond as a consultant).
- I currently run my own consultancy in the research information sector (est. 2007) and a successful life and leadership coaching business.
